

The Comfort Rwanda & Congo School

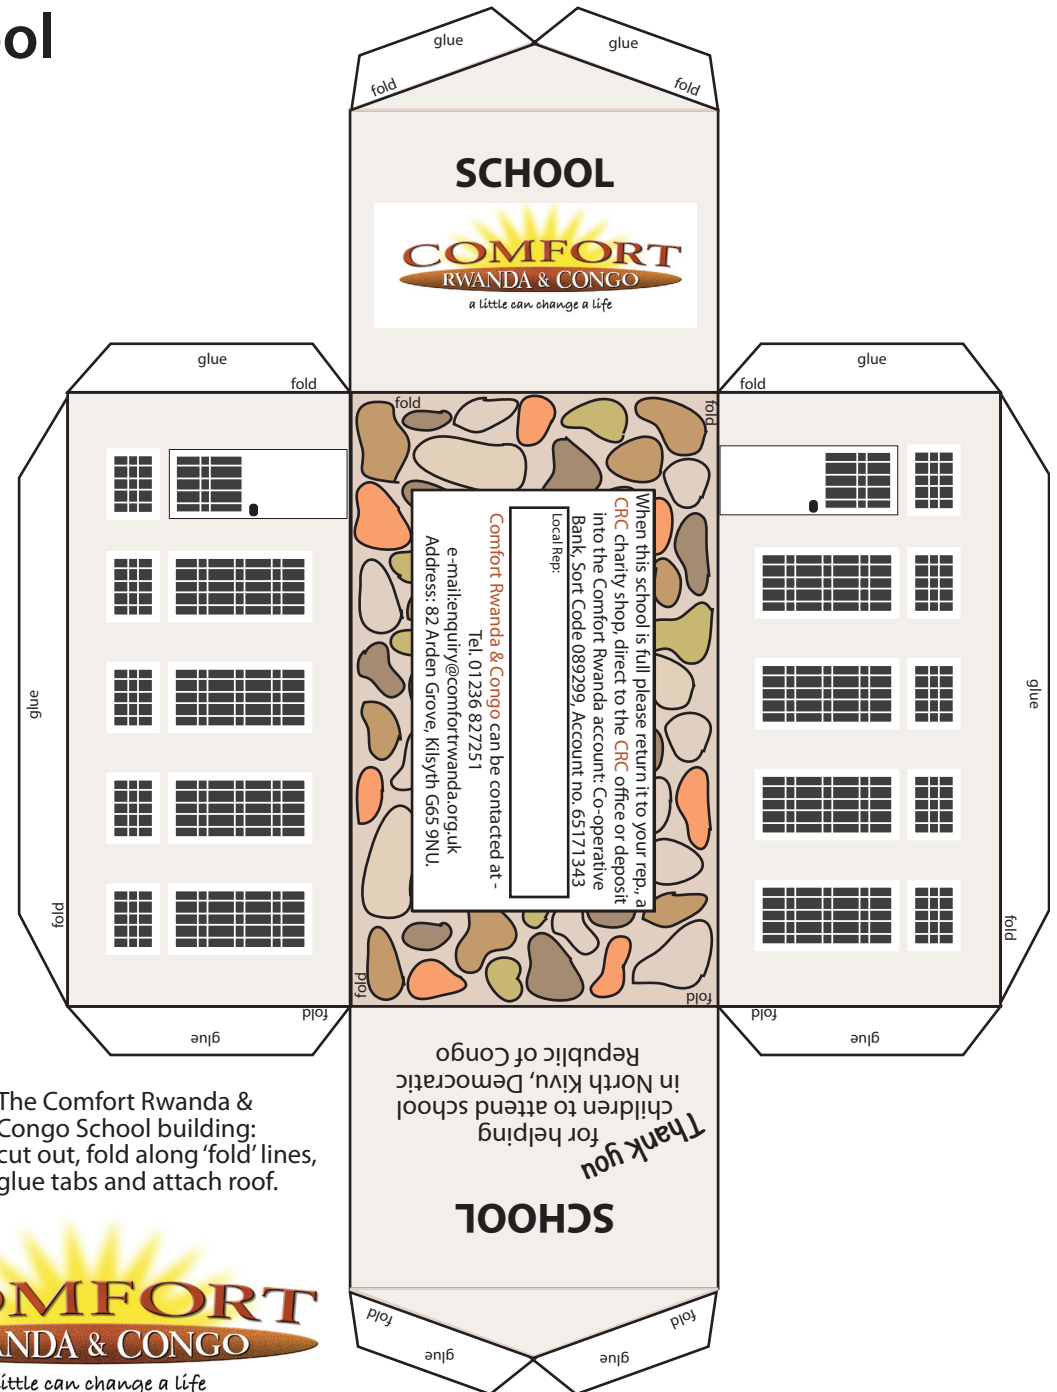

Comfort Rwanda & Congo (CRC) is bringing considerable blessing to genocide survivors and the extremely poor in many parts of Rwanda and D.R.Congo. One area that CRC supports is to facilitate education in North Kivu for displaced people, refugees and pygmies thereby offering them a route out of poverty. The schools operate under extremely difficult conditions with some classrooms very poorly built and some teachers in need of salaries. By supporting this project you will help us build new classrooms and provide salaries for the teaching staff.

If you would like to contribute to the work of Comfort Rwanda & Congo you can by making and filling this model school and returning it as directed on the base of the model.

To make this Comfort Rwanda & Congo School cut out the two shapes, fold along the lines and glue the walls together. Fold the roof piece and cut out the coin slit, then glue the roof to the main building. If you want to make more remember to copy this page first onto thin card.

Roof: cut out roof shape, fold along central line, cut out coin slit and attach to The Comfort Rwanda & Congo School building

The Comfort Rwanda & Congo School building: cut out, fold along 'fold' lines, glue tabs and attach roof.
